

# What Should I Bring to My Notary Appointment?

A quick guide from New Heights Notary & Business Solutions

## 1. Your document

Bring the document that requires notarization.

## 2. Your identification

Have acceptable identification available for the notary's identification procedure.

## 3. The required people

Everyone who needs to personally appear and sign should be present.

## YOU MAY ALSO NEED

- Witnesses, depending on the document
- Additional copies
- Payment
- Special instructions from the document provider

## REMEMBER

A notary can perform a notarial act, but a notary does not decide whether your document is legally appropriate.

If you have questions about what a document means, what document you need, or what you should sign, consult the appropriate attorney, lender, title professional, employer, or other qualified professional.

**Need a mobile notary?** New Heights comes to you.
